Lebanon

MENAHPF Forum Beirut Oct 2019:
The Forum was held in Beirut Le Bristol Hotel from Oct 14 to 16. It is organized by the Middle East and North Africa Health Policy Forum, and NGO sponsored by the world bank, tackling health related policies required by the countries under this region.
The Forum was also sponsored by Roche, and had a technical support and coverage by EMRO WHO office.

The topic is discussing the implementation plans for a HTA in this region.
The attendance were around 60 professionals from mainly Egypt, Lebanon, Oman, Jordan, Tunisia, Saudi Arabia. The Arab Hospital Federation was represented by D Khoja himself.

HTA presentations range from displaying all HTA programs, how to cooperate with international HTA agencies like INAHTA, how to prevent double work learn from successful programs, to discuss on the third day, through work groups, how to implement HTA in our countries.

The recommendations shall be reported officially soon, distributed to attendees and to be assessed with each Ministry of Health representatives.

HTA and HTM were two hot topics for MENA countries. clinical Engineers should be available all through the journey right from the beginning of planning of implementation and execution.
